Yardco Rock & Stone

ABOUT US

Yardco Rock & Stone is a worldly stone supplier making natural hardscape elements from different countries accessible to everyone. We have over 20 years of experience supplying the top landscape architects, contractors and designers in the U.S.A. and worldwide, with the highest quality hardscape materials available. Family owned and operated since 1999, our welcoming staff is extremely well educated on importing and exporting stone, providing quality recommendations, and bringing in new inventory. We personally source new landscape stone materials from all over the world to provide customers with more options than any other stone supplier in the country. Beach pebbles, hand carved statuary, natural basalt fountains, and teak driftwood specimens are only the beginning of what is available. In this catalog we are sure there is something that you are bound to discover, dig in.

ABOUT US • LOGISTICS

Pallet Shipping • LTL & LCL

Yardco Rock & Stone will ship to your driveway just about anywhere! Our Logistics story begins with The owner's experience in the United States Marine Corps where he graduated to drive larger and larger machinery. From local shipments via a third-party flatbed, with machinery for offloading, to an air freight shipment to the other side of the world in Dubai, our can-do attitude can make just about anything happen!

Full Truckload Shipping • FTL

Full Container Shipping • FCL

The most effective way to ship a product will depend on the amount of material, the target project commencement and completion date, and the material origin. That being said, we ask that you contact us to discuss your purchase and your shipping needs. We can't wait to hear from you!

Universal Landscape, Mexican Mixed

Yardco Rock & Stone's responsibly sourced imported beach pebbles are a wonderful addition to any garden bed or landscape design. We have established wonderful relationships with our global vendors who like us, value the environment and the people that harvest the pebbles we supply. We like to think that this relationship continues through to you and furthermore to your customers. We take pride in the transparency of our manufacturing process and strategies. Please note, the beaches in Mexico are not yielding the same amount of "black/gray" as they used to. Instead now, the true Mexican Black Beach Pebble sometimes runs with large amounts of green and brown in addition to its black gray hues. We promise to continue to bring you the highest quality Mexican Beach Pebble available and we thank you for being a part of that promise.
